LoRa® SPY TO

Temperature recorder with a long-range LoRaWAN[™] connectivity

Presentation

The LoRa® SPY T0 recorder measures and records temperature.

Data are sent to the JRI secure Cloud by the LoRaWAN[™] network of the telecom operators members of the LoRa Alliance[™], or by a local network. In case of thresholds excursion, real-time alerts are sent.

Robust and waterproof, it is adapted to the cold chain monitoring during transportation.
